MCINTOSH

COMBI PRO

14.2 - 20.6M³

The McIntosh Combi Pro roller chain conveyor can feed over fences or high sided feed troughs successfully.

The McIntosh Combi Pro is a truly versatile feeding solution built to handle everything from bulk silage to square bales, round bales, fodder beet, and more. The Combi Pro is designed to deliver reliable, efficient feeding every time.

The Combi Pro's dual chains pull the back door forward evenly preventing twisting and eliminating the need for a hydraulic ram. The floor has been designed with no central floor gap that ram-driven systems have, which means less feed loss, product build-up and maintenance.

STANDARD FEATURES

Rear door pulled evenly by two chains

Side mesh screens for better visibility

Waste bins

Feeds rounds no matter how loaded

OPTIONAL EXTRAS

- Auto Tip for feeding over fences or directly into troughs
- 2 - 3 Bank operation
- Load cells with screen on Combi ensures you always know the load weight
- Brakes on 2 or 4 wheels
- Load cells with full Bluetooth system for tablet or phone
- Rear facing camera

SPECIFICATIONS

Model	Cubic Capacity (m ³)	Overall Width (mm)	Overall Length (mm)	Loading Height Bin (mm)	Tyre Size	Weight (kg)	Internal Bin		
							Length (mm)	Width (mm)	Height (mm)
PRO 14.2	14.2	2680	8225	2545	15/70-18	6040	5380	2100	1300
PRO 17	17	3090	8225	2600	500/45-22.5	6460	5380	2500	1300
PRO 17.3	17.3	2680	9425	2585	385/65-22.5	6480	6580	2100	1300
PRO 20.6	20.6	3090	9425	2760	500/60-22.5	7020	6580	2500	1300

NB: All weights and measurements are approximate and dependent on specifications and may change without notice.

What really sets the Combi Pro apart is the optional “Auto Tip,” a patent-pending second-stage elevator cross conveyor (Australian Patent Application No. 2023903709). This industry-first innovation gives you precise control over feed placement, whether it’s over a fence line or directly into a trough. With a 75-degree elevator angle, feed can be dropped closer to the ground, creating a narrow, consistent flow. This helps to reduce waste, save time, and improve on-farm efficiency and cost-effectiveness. It’s a real game changer, especially in snowy or muddy conditions.

WHY MCINTOSH?

At McIntosh Farm Machinery, we take pride in delivering robust, high-quality equipment designed to withstand the toughest farming conditions for New Zealand and Australian farmers.

75+ Years of Expertise

A family owned and operated business with decades of experience in designing and manufacturing innovative farming solutions.

Tailored Solutions

Customisable machinery designed to meet your farm's specific needs, maximising efficiency and performance.

Unmatched Durability

Built with premium materials and precision engineering to ensure long-lasting performance in New Zealand's harsh conditions.

Reliable Support

Backed by dedicated after-sales service and expert advice to keep your equipment running smoothly.
