MCINTOSH

SILAGE WAGON

9-27M³

McIntosh Titan and Multicrop Silage Wagons are built tough for New Zealand's rugged conditions.

Proven feed systems ensure consistent delivery, while McIntosh's renowned build quality guarantees reliable performance year after year. The Multicrop delivers core McIntosh strength and reliability at a more accessible price, with the same durable build and efficient feed system. The Titan steps it up for tougher conditions, with 13 mm chains, larger sprockets, shafts, and gearboxes for extra strength and power. Both models are built for practical rural performance, without compromise.
