MCINTOSH

TITAN MAX

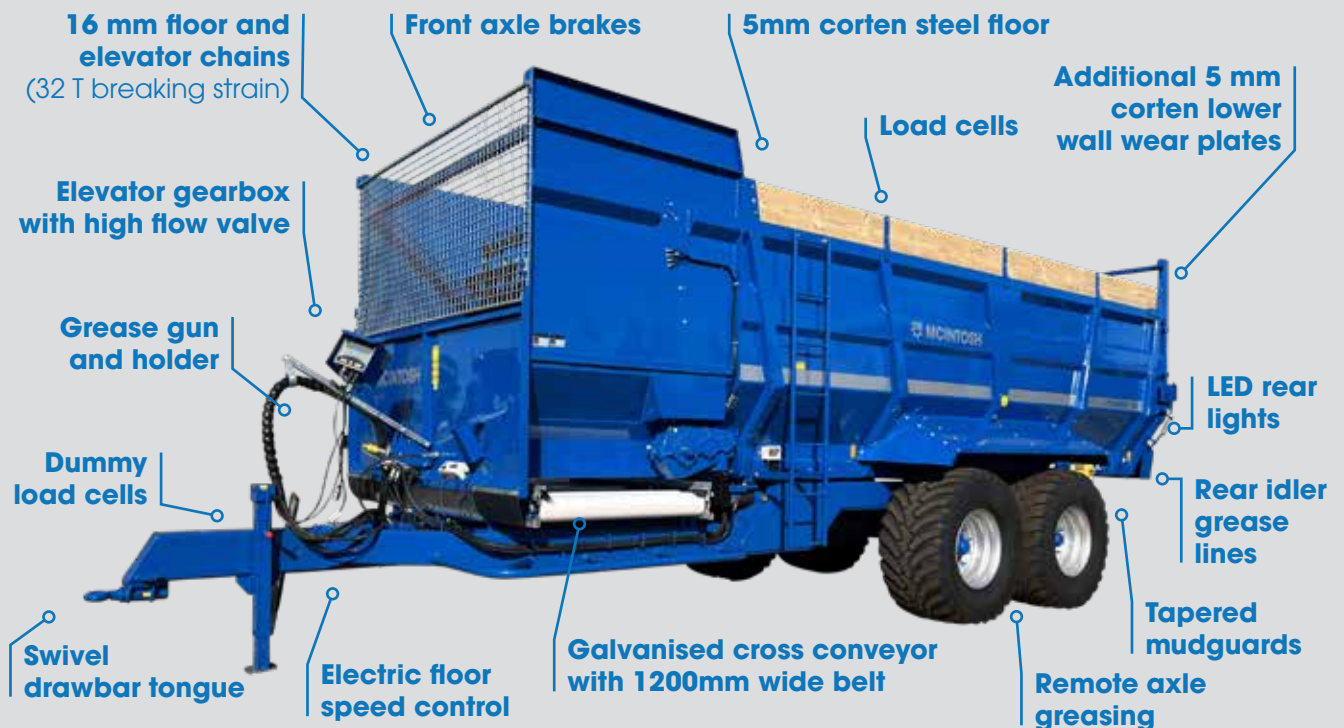

20-27M³

McIntosh Titan Max is the heavy-duty standard for silage wagons. The Titan Max is built for farmers who demand maximum strength, reliability, and efficiency from their gear.

Designed to handle multiple heavy loads day after day, it's one of the strongest waggons available in New Zealand, made to perform in the toughest conditions without compromise. With 16mm floor and elevator chains (32 T breaking strain), a 5 mm corten steel floor, and heavy-duty side construction, the Titan Max delivers unmatched durability.

Smart design features like the grease-pressurised rear chain adjusting system and remote greasing points make daily operation safer and easier—keeping you out from under the machine and out on the job. Whether you're running large herds or working as a contractor, the Titan Max helps you do more with less downtime. Available in 1400, 1500, 1700, and 1900.

STANDARD FEATURES

Auto floor chain tensioner

Vertical elevator

40-1 German reduction gearbox

Pivoting cross conveyor with tracking strip (optional)

OPTIONAL EXTRAS

- 4 Floor/elevator chains option for 1400 and 1500

1900	27.2	19	2940	10250	2950	6985	550/60-22.5	780	4	4	2 wheel

NB: All weights and measurements are approximate and dependent on specifications and may change without notice.

MULTICROP: 10 mm with 14-tonne breaking strain

TITAN: 13 mm with 23-tonne breaking strain

TITAN MAX: 16 mm with 32-tonne breaking strain

3" hollow pin with 7-tonne breaking strain

WHY MCINTOSH?

At McIntosh Farm Machinery, we take pride in delivering robust, high-quality equipment designed to withstand the toughest farming conditions for New Zealand farmers.

75+ Years of Expertise

A family owned and operated business with decades of experience in designing and manufacturing innovative farming solutions.

Tailored Solutions

Customisable machinery designed to meet your farm's specific needs, maximising efficiency and performance.

Unmatched Durability

Built with premium materials and precision engineering to ensure long-lasting performance in New Zealand's harsh conditions.

Reliable Support

Backed by dedicated after-sales service and expert advice to keep your equipment running smoothly.
